In an 'Around —GARY—

ARE MAKING GOOD PROGRESS

Rapid progress is being made by the contractors of the Illinois Improvement and Construction company in paving the west side of Broadway from the Wabash to the Pennsylvania tracks and according to foremen this morning the first strip between the Wabash and Michigan Central tracks will be completed by night fall. Huge quantities of material has been placed in the street ahead of the concrete gang and it is believed that the big job will be completed in record breaking time. As soon as the west side is finished the east side will be torn up and replaced with concrete. This depends upon the weather, however, for if the weather gets too severe before the east side is started the work will be held over until next spring it is understood.

GARY STREET RAILWAY SUEED

Angelo Chialba of Gary has brought suit for damages against the Gary Street Railway company because of injuries which he suffered Sept. 23, 1919, in a street car accident. Chialba had both hips fractured and received other injuries, which have kept him from working since then. He wants \$25,000 damages. J. M. Stinson is his attorney.

BIG ADVANCE SALE

With an advance sale of seats amounting to a total of \$15,000, the Leonard-Moran fricas at the East Chicago ball park promised to draw a record breaking crowd at 3 o'clock this afternoon. "We will need rate receipts amounting to \$25,000 to pull us out of the hole," said Promoter George Oswego, "as Leonard alone is costing us \$12,000. We are paying more for this card than any that has ever been staged in the Calumet region."

PLEADS GUILTY

Jack Kalinowski alias Jack Kalin of Gary, who was arrested in Milwaukee on an affidavit charging him with the theft of \$530 from a Gary man, pleaded guilty to the charge of grand larceny before Judge Martin Smith in the criminal court at Crown Point yesterday and was sentenced to from one to fourteen years in the Indiana State Reformatory.

It was wet at the Gary police station, in fact there was almost a flood. A drunk is said to have torn a pipe loose on the shower bath in the cell.

Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multisided coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two tea-spoonfuls of Multisided will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, sandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy, and easy to manage. You can get Multisided coconut oil shampoo at most any drug store. It is very cheap and a few ounces is enough to last everyone in the family for months. Be sure your druggist gives you Multisided—Adv.

CUTTING SCRAPE

Joe Duplin, 1227 Tyler street Gary is lying near death's door in the Mercy hospital today with his neck sliced from his car to the shoulder blade. When the police arrived at the scene of the cutting at 17th and Tyler street shortly after midnight they found Duplin weak from the loss of blood and in a semi-conscious condition. Effort was made to get him to talk but he refused to divulge the name of his assailant or the incidents leading up to the cutting.

The police are lead to believe from an investigation that Duplin was in the alley with a woman and she probably made an effort to rob him of the \$23.68 which he had on his person. It is thought that when he resisted, she drew a knife and cut him. She did not take the money, however.

LONDON, Sept. 25.—The condition of Terence MacSwiney, hunger-striking mayor of Cork was reported as unchanged this morning. This was the forty-fourth day of MacSwiney's self imposed starvation. FREE Demonstration

Postpone Monday's washing. Instead of going through the regular routine of drudgery that has enslaved you for all these years, take a vacation this time. Make it a demonstration day. Let the Apex come in and show you just how near work-free and worry-free you can make life Monday.

The APEX representative is here and has instructions from the factory to demonstrate the Apex Washer or Ironer in your home. Hammond absolutely without obligation, so while this campaign is on let every woman take advantage of it, whether she intends to install a machine now or in the future.

The clothes—whether the finest lace or the heaviest blankets—are placed in the washer which has been filled with hot, soapy water. A button is pressed to start the motor, the machine is started by turning a handle and needs no further attention until the washing of the first batch of clothes is complete.

The Apex Swinging Wringer is also driven by the electric motor and the clothes are passed from the washer through the wringer directly into the rinsing tub. The wringer can then be swung into position to handle the clothes directly from the rinsing water into the blueing, and to still another position to handle the clothes into the basket. Of course the wringer can be operated while the washing machine is in motion.

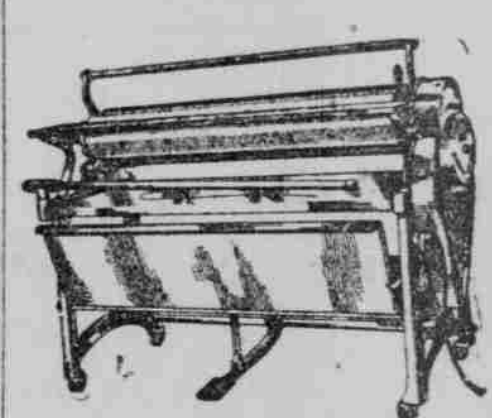

The Apex Electric Washer will easily handle the average family wash so as to be beautifully clean and on the line in less than two hours. This allows the mistress of the house to sail forth early in the day for shopping, recreation in or out of doors or for other household and social duties, reading or repose at home.

Or, if she prefers a laundress, either work as well as the washing is easily cared for in one day.

Important Apex Features

- 1—All metal—no heavy, water-soaked, wooden parts to lift out and in.
- 2—Original oscillating type—recognized by authorities as the true washing machine principle.
- 3—Triangular construction in the tub, producing strong cleansing action.
- 4—Solid, lasting, all metal construction.
- 5—Three sizes in three styles to suit every need and every purpose.
- 6—Swinging wringer which can be locked and operated in three different positions.
- 7—Moving parts all enclosed.
- 8—Belt drive to prevent burning out of motor and fuses.

APEX IRONING MACHINE

There is a great advantage in pressing an entire article at once. There is no pulling or drawing and the steady even heat absolutely prevents scorching.

The APEX ironer has the double control with either hand or foot release, which leaves the hands free to arrange clothes. It is built on the same principle as a hand iron—the polished ironing surface of the shoe is curved and the clothes are pressed between this heated shoe and a heavily padded roll. Shoe is heated by gas, gasoline or electricity.

We are also authorized selling representatives of the APEX Sweeper which will be demonstrated free to anyone calling for appointment.
